

# Our partnership with Sunrise Senior Living

---

We are delighted to announce that Sunrise Senior Living has decided to sponsor [Alzheimer's Society's Research Network](#) for the next year, starting from September 2012.

[Sunrise Senior Living](#) provides unique, resident-centred community living designed to encourage independence and freedom of choice for residents. Through the partnership, Sunrise will help facilitate the unique and valuable contribution that people with [dementia](#) make to Alzheimer's Society [research work](#). This includes Alzheimer's Society's Annual Research Conference in October, which will be held in Leeds. The conference brings together over a hundred [Research Network volunteers](#) and leading researchers to discuss the [latest developments](#) in dementia research and to learn from each other's experiences. This year's conference is set to be the biggest ever, thanks to the generous support of Sunrise Senior Living.

Jeremy Hughes, Chief Executive of Alzheimer's Society said:

'We are hugely grateful to Sunrise Senior Living for their support. Alzheimer's Society invests money into research to develop [treatments](#) to help [people with dementia](#) live well today and find a cure for tomorrow. Sunrise Senior Living's sponsorship will help us continue to put people with dementia, their families and [carers](#) at the very heart of everything we do.'

Guy Geller, Head of Sunrise Senior Living UK added:

'If we hope to find a cure for dementia it is essential that we invest in [research](#) and share experience and expertise. Through Sunrise Senior Living's sponsorship of Alzheimer's Society we are delighted to be able to support the vital work of the [Research Network](#).'
