

## Undergraduate Research Bursaries

Supporting the next generation of research leaders.

We offer bursaries for undergraduate students in the middle years of their degree to experience research within the field of dementia.

We fund research across all areas of dementia; the project must fit into one of the two funding streams:

- care, services and public health research
- biomedical research

Supervisors can apply for up to £2,100 for an 8-week summer project:

Student stipend of £200 per week  
Up to £500 consumables

**Opening: 16th December 2019**  
**Deadline: 13th February 2020**
