

Trek26

Yorkshire
Three Peaks

Your
training
plan

Hello, and welcome to the team!

Thank you so much for taking on Trek26 Yorkshire Three Peaks for Alzheimer's Society. We hope you're looking forward to the incredible adventure ahead.

The big day is going to be tough and you'll certainly need to get your training in. But you needn't worry; we will be here for you until the big day and ensure you triumphantly cross that finish line.

I've been working in partnership with the team at Alzheimer's Society for several years now. I am a professional training coach and really do know my stuff (honest)!

The plan below should be used as a general guide to your training. We recommend you try and stick to the suggested five sessions that have been pencilled in each week, but feel free to move these around to fit your schedule.

If you have any questions, drop us an email to info@runningwithus.com and we'll be happy to help!

A bit about Nick...

Nick is an England Athletics coach and manages GB squads at events such as the World Half Marathon Championships. Having coached hundreds of athletes from beginners through to Olympians, Nick is one of Europe's most highly respected coaches.

**'Unbelievably
knackered... but
very exhilarating
and worthwhile.
Make sure you
train for it!'**

Alice, 2018 Trek26-er

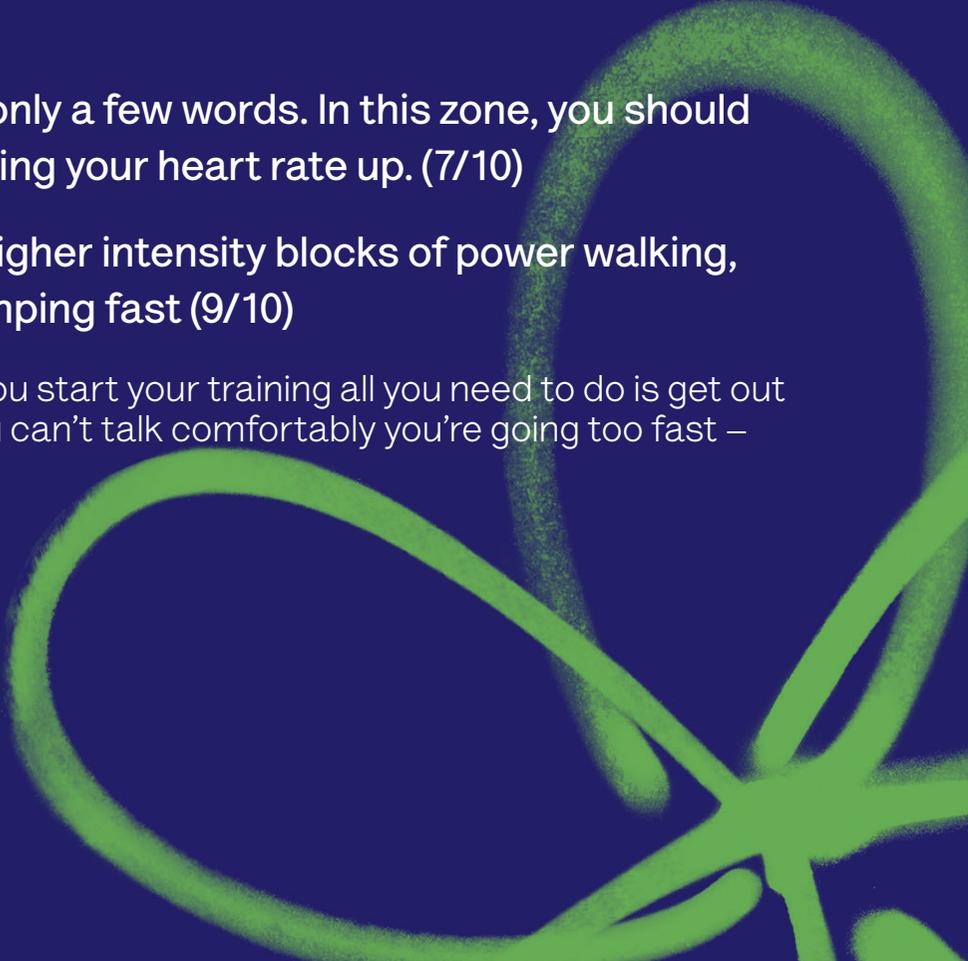

How should each walk feel?

Our training plans work you in a range of different 'effort zones' in order to add variety into your training and to more effectively develop your strength and get you ready for the big day. The scores after each type of walk are out of 10, which is personal to you and how you feel.

- Easy walk:** you should be able to easily have a chat, feel relaxed and fully in control. (3/10)
- Steady walk:** you should still be able to hold a conversation, but it will be slightly strained. You should feel in control, but be breathing slightly heavier and putting more effort into each of your steps. (5/10)
- Brisk walk:** you should be able to talk between breaths but only a few words. In this zone, you should be taking faster, more powerful strides and getting your heart rate up. (7/10)
- Intervals:** in this zone, you should be completing shorter, higher intensity blocks of power walking, over hilly terrain if possible to get your heart pumping fast (9/10)

It can be difficult to know how fast you should be walking at first. When you start your training all you need to do is get out and walk at an easy pace, where you can easily hold a conversation. If you can't talk comfortably you're going too fast – simple as that!

Glossary

Rest

Rest should be as important as walking in your training schedule. We've included a lot of it in your plan, as your body needs rest to recover and adapt to the training sessions you are doing. Listen to your body, and take more rest if you need it.

Long walks

These are really important to make you feel confident in taking on 26 miles on the day. Try to increase the time on your feet in their sessions first, instead of worrying about the distance you are walking. Use these sessions to practice wearing your kit and testing out the food and drink that you are going to use on the day.

Hill walking

This strengthens your muscles, and prepares you for the hills that you'll take on during the challenge. A typical hill training session involves walking up with a strong stride, then turning immediately and heading down the hill at an easy pace, before repeating this.

Fartlek

This is a Swedish term that means 'speed play'. It involves a number of bursts of high intensity walking with recovery in between. You can do these easily when you are out between lampposts, trees or other landmarks and these sessions can be great fun to do with friends.

Cross training

It's important that your training is balanced by lower impact activities to prevent you from picking up an injury. On the cross training days you can do anything that gets your heart beating faster, like swimming, cycling or aerobics.

Core workout

It's also important to build a strong core to prevent injuries and imbalances. You can do this through going to your local Pilates class or just doing some simple core exercise at home. Keep this gentle though, so it doesn't leave you too tired to go on your walks.

Trek26 Yorkshire Three Peaks - 26 mile training plan

Date	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday	Sunday
Week 1 w/c 11 March 2019	Core workout or pilates class, and consider a 30 minute walk. <input type="checkbox"/>	30 minute walk. Include 3 x 5 minutes brisk walking, with 2 minutes recovery. <input type="checkbox"/>	Rest <input type="checkbox"/>	10 minute walk. Include 10 x 90 seconds brisk up hill walking, with an easy walk back to recover. 10 minute walk to finish. <input type="checkbox"/>	Kick start your fundraising by setting up a JustGiving page. If you've already set up your page, now's the perfect time to add a training update and share it on social media! Trek26 Yorkshire Three Peaks - 26 mile training plan

Date	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday	Sunday
Week 13 w/c 3 June 2019	Core workout, optional 30 minute walk. <input type="checkbox"/>	45-60 minutes with the final 25 at a brisk effort over and undulating route. <input type="checkbox"/>	Rest <input type="checkbox"/>	Optional cross training – easy 45-60 minutes. <input type="checkbox"/>	Rest <input type="checkbox"/>	60 minute ‘fartlek’ walk using landmarks. <input type="checkbox"/>	30-32km walk with the final 10km including brisk hills. <input type="checkbox"/>
Week 14 w/c 10 June 2019	Core workout, optional 30 minute walk. <input type="checkbox"/>	45-60 minutes with the final 25 at a brisk effort over and undulating route. <input type="checkbox"/>	Rest <input type="checkbox"/>	Optional cross training – easy 45-60 minutes. <input type="checkbox"/>	Hold a sweepstake asking people to guess your finishing time. The closest person to your actual time wins half the takings.	45 minute ‘fartlek’ walk using landmarks. <input type="checkbox"/>	2 hour 30 minute walk with the final 60 minutes at a brisk effort over hills. <input type="checkbox"/>
Week 15 w/c 17 June 2019	Core workout, optional 30 minute walk. <input type="checkbox"/>	40 minute walk including 5 x 5 minutes brisk effort, with 90 seconds easy recovery. <input type="checkbox"/>	Rest <input type="checkbox"/>	Optional cross training – 30-45 minutes. <input type="checkbox"/>	Rest <input type="checkbox"/>	30 minute ‘fartlek’ walk using landmarks. <input type="checkbox"/>	90 minute easy relaxed walk. <input type="checkbox"/>
Week 16 w/c 24 June 2019	Core workout, optional 30 minute walk. <input type="checkbox"/>	30-40 minute walk including 3 x 5 minutes brisk effort, with 90 seconds easy recovery. <input type="checkbox"/>	Rest <input type="checkbox"/>	15-20 minute easy walk. <input type="checkbox"/>	You’ve completed your training - well done! With the big day tomorrow, get plenty of rest today and an early night.	The big day is finally here. Good luck!	YOU DID IT! Huge congratulations. Be sure to update your profile picture today with a finish line selfie and let everybody know just how much you’ve achieved!

Top Tips

1. Get organised

Make a plan for your training, and try to stick to it. There will be days that you have to swap or miss out due to being tired or injured, but having a plan means you're much more likely to fit in your training walks around your busy schedule. You'll also enjoy the trek much more on the day if you've trained properly.

2. It's not just about training

Most people thinking about preparing for a trek just focus on their training, but sleep and nutrition are also really important. Your body needs to recover from your training sessions so you become fitter and stronger. Aim for eight hours of sleep a night and try to eat lots of healthy carbohydrates, protein, fruit and vegetables. Try to also snack regularly on healthy foods between meals, to keep your energy levels high.

3. Get your friends involved

Make your training fun by trekking with friends and family or joining a local walking group. We find the miles pass much quicker when you are chatting, and you might also inspire someone else to sign up and take on this epic challenge too!

4. Be safe

Before you set off, plan your route and take a map with you just in case. Pack extra food and water in your bag, so you have plenty to keep you going.

5. Listen to your body

Follow the training plan above, but make sure you also listen to your body. If you are sore you might be about to get injured, so rest, stretch more, and cross train instead of walking. If you are tired you might also need more rest.

6. Do what you can

Sometimes life gets in the way, and that's ok! Whether it's looking after your kids, moving house or a new job - there will always be something which will impact your training. When this happens, just try to do what you can. Something is always better than nothing! Go for a quick 30 minute walk in your lunch hour, or park further from your office than you normally would and walk in.

Thank You

We just wanted to take a minute to say a massive thanks for signing up to this epic challenge - we know you're going to absolutely smash it!

When your training gets tough, just remember that every step is helping us get closer to a cure. It's thanks to inspiring people like you that we are able to continue being there for everyone affected by dementia.

If you need anything at all, just email the team on challenge@alzheimers.org.uk, and we'll be delighted to help you!

We'll be in touch again soon, but until then - keep trekking!

Best wishes,

The Challenge Team
